

# Length Measuring Tools

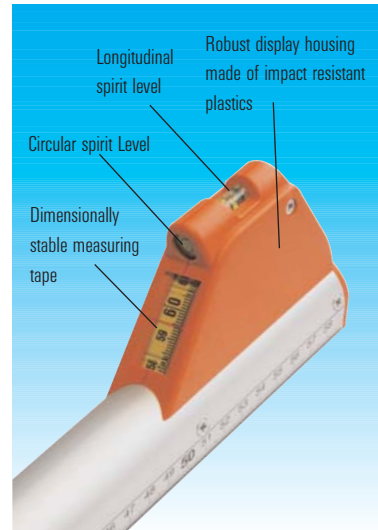

## Nedo **mEssfix compact**

Measure interior dimensions quickly and reliably with the lightweight and handy telescopic measuring stick Nedo **mEssfix compact**. Simply place the **mEssfix compact** in position, pull out the extensions and conveniently read off the measurement from the analogue display. Ideal in interior outfitting. Nedo **mEssfix compact** is very handy thanks to its compact dimensions, its light weight and its round telescopic tubes.

The display is attached at the foot of the **mEssfix compact**, so when measuring windows, the measured values can conveniently be read off at eye level. A two-way bubble is integrated into the display housing to facilitate taking horizontal and vertical measurements.

### Features:

- Compact dimensions
- Robust display housing with horizontal/vertical bubbles
- Circular telescopic tubes for convenient handling
- Supplied with case as a standard

More compact dimensions,  
larger measuring range

3 m      5 m
