Double Right Angle Optical Square
#B-OS

These unique BEARTM SCIENTIFIC Prism Poles incorporate

- ◆ GPS Fixed height pin (2.0m)
- ◆ Prism Point & Topo Boot combined in one housing
- ◆ Adjustable top for varying prism heights to match measurements on pole
- ◆ Lifetime adjustable clamp
- ◆ Includes carry bag
- ◆ Pole graduated in feet & meters

FEATURES

- Measurements on the sliding prism pole and the GPS (2.0m) pin hole are from the point to the top of the 2nd locking nut in the closed position.
- No height adjustment is needed if you use our single tilting mount (B-STT) or your existing prism has a ht of 115mm from its base to the centre of prism.
- Mini + Midi Prism Holders that measure less than 115mm then use the two adjusting lock nuts to set the correct ht on pole
- Locking Pin inserts into 2.0m GPS hole giving 2m from point to top locking nut in closed position. Locking pin screws into clamp when not in use
- Yellow bubble - easy to see.

ALL CARBON (2 section with bubble) & heavy duty carry bag.
